EXECUTIVE SUMMARY

Following are highlights of the contents of this lease agreement:

- Member companies in good standing are not charged rental for the equipment but are responsible to pay for transportation to/from an incident, as well as any repairs, maintenance or replacement of equipment used during the incident. This could include replacement costs for containment boom, skimmers, and rotating equipment. Equipment that has not been decontaminated enough to be used in a clean environment will be replaced at the user's cost.
- Member companies outside of the WCSS jurisdictional boundaries agree to pay 1/3 of the rental rates stated in Schedule "B" of this document, as well as transportation to/from the incident as well as any repairs, maintenance or replacement of equipment used during the incident. This could include replacement costs for containment boom, skimmers, and rotating equipment.
- Member companies agree to pay 1/3 of the rental rates stated in Schedule "B" applies if the spill is from a facility (downstream and/or midstream) or rail incident, if the member company is held liable for the spill and requests WCSS equipment.
- Non-member companies accept the terms of this lease, and agree to pay the rental rates outlined in Schedule "B"; applicable taxes as well as transportation to/from the incident as well as any repairs; and maintenance or replacement of equipment used during the incident. This could include replacement costs for containment boom, skimmers, and rotating equipment. Acceptance of the terms of this lease also include the understanding that the equipment may be required by a member company and, therefore relocated prior to completion of the incident.
- Access to WCSS equipment for non-member companies is at the discretion of *WCSS Management; where there is an oil spill in surface water WCSS will assist the non-member if we are able and provide equipment provided the use of the equipment does not compromise access to the equipment by WCSS members. To obtain WCSS equipment the non-member must:
 - Request and obtain approval for the use of the equipment from the WCSS Operations Manager, WCSS Operations Coordinator or other WCSS designate.
 - Sign the non-member equipment use agreement before the equipment is utilized.
 - Reimburse WCSS for the daily rental charges for the equipment that is utilized (see schedule "B" in the non-member equipment use agreement).
 - Reimburse WCSS for any consumables, equipment repairs and/or maintenance and equipment replacement if required.

*WCSS Management – WCSS Operations Manager, WCSS Operations Coordinator or WCSS President & COO

- Although the term of the lease will not expire, the expectation is that, if the anticipated use of the equipment lasts beyond 14 days, the WCSS Operations Manager will negotiate an extension with the lessee.
- Only persons who have successfully completed the WCSS Boat Handling Course and have certification (including MED training), shall be permitted to operate the Corporation's boats.

The Lessee shall, at its expense, comply with and conform to all federal, provincial, municipal and other laws, ordinances and regulations in any way relating to the possession, use and maintenance of the Equipment. This includes procuring a research permit prior to deploying any wildlife deterrents.

- From and including the time the Equipment is removed from the Storage Site to and including the time that the Equipment is returned to the Storage Site, the Lessee will at its own expense maintain "all-risk" property insurance of not less than the replacement cost of the Equipment, together with comprehensive general liability insurance (including coverage for property damage, bodily injury and contractual liability).

3.4 Interest

All fees and all other costs under this Agreement shall be paid within thirty (30) days of receipt by the Lessee of an invoice issued by the Corporation. The Parties agree that the Corporation shall not be obligated to make inquiry into the authority of any officer or employee executing Schedule “A” on behalf of the Lessee and the Corporation shall be entitled to rely on such execution as sufficient authorization by the Lessee of the matters set out in Schedule “A”.

- (b) The Lessee shall not without the prior written consent of the Corporation make any alterations to the Equipment. Any alterations so made to the Equipment shall be at the Lessee's expense and shall belong to and become the property of the Corporation subject to the terms of this Agreement.

5.3 Inspection and Repair Following Use

Within ten (10) Business Days after return of Equipment to the Storage Site, the Corporation shall inspect the Equipment (with the Lessee or its representative if possible) and identify the items which must be cleaned, drained, dried, repaired or replaced by the Lessee in order to restore the Equipment to the same condition (reasonable wear and tear excepted) and cleanliness in which it was delivered to the Lessee. If the Corporation determines, acting reasonably and with regard to good industry practice and applicable laws and regulations, that such work is required to restore the Equipment to such same condition (reasonable wear and tear excepted) the Lessee shall confirm the same by completing and signing a report in the form of Schedule "A" which describes such work and which shall then be sufficient authority for the Corporation to commence the required work. The Lessee shall be responsible for all costs and expenses incurred in accordance with any such executed Schedule "A" or required to restore the Equipment to the condition of the Equipment prior to removal from the Storage Site as described in Schedule "A" and the Corporation will invoice the Lessee and the Lessee shall pay directly to the Corporation all such amounts (including an administrative fee to be determined at the time of completing and signing Schedule "A") incurred for such maintenance, repair or replacement.

5.4 Other Equipment

The Lessee agrees and acknowledges that additional equipment other than the Equipment leased hereunder may be required by the Lessee in the performance of necessary oil spill emergency response procedures. The Lessee shall be solely responsible for supplying such additional equipment including, without limitation, additional radio and other communication and safety equipment.

The Lessee shall use the Equipment in a careful and prudent manner and for the purposes of emergency oil spill containment and recovery operations or training exercises approved by the Corporation. The Lessee shall, at its expense, comply with and conform to all federal, provincial, municipal and other laws, ordinances and regulations in any way relating to the possession, use and maintenance of the Equipment.

5.6 Inspection

The Corporation shall at all times during business hours have the right upon reasonable prior notice to enter into and upon the lands and premises where the Equipment may be located for the purposes of inspecting the Equipment and observing its use or to repossess and/or remove the Equipment.

5.7 No Warranties

No warranty, express or implied is made by the Corporation or its agents, employees or directors as to the ability of the Corporation's employees or agents or the correctness, sufficiency or suitability of the Equipment, or that any information, recommendation or suggestions including the use or deployment of Equipment supplied or made by the Corporation or its employees or agents will provide for total or effective cleanup or containment of a spill, nor do they assume any responsibility in connection therewith.

5.8 Liens

The Lessee will ensure that all Equipment leased from the Corporation hereunder is kept free and clear of all liens, charges and encumbrances. The Lessee shall give the Corporation immediate notice of any seizure, attachment, lien or other judicial process affecting any item of the Equipment.

- (b) subject to the written consent of the Corporation, repair or replace the Equipment or the items or parts of the Equipment that are the subject of such damage, destruction, loss, theft or governmental taking with equipment of like manufacture, value, class, utility and quality so that the Equipment is put into first class mechanical and working order as reasonably determined by the Corporation.

6.2 Insurance

From and including the time the Equipment is removed from the Storage Site to and including the time that the Equipment is returned to the Storage Site, the Lessee will at its own expense maintain “all-risk” property insurance of not less than the replacement cost of the Equipment, together with comprehensive general liability insurance (including coverage for property damage, bodily injury and contractual liability) and any other form of insurance covering the Equipment against risks as considered prudent for that type of property by operators of business similar to that run by the Lessee or as may be reasonably required by the Corporation. The Lessee, will, upon request, give the Corporation evidence acceptable to the Corporation that the insurance coverage is in effect. If the Lessee fails to obtain or maintain such insurance, the Corporation may do so and shall be entitled to immediate reimbursement for the premium for such insurance from the Lessee without prejudice to any other rights or remedies of the Corporation set out in this Agreement. The Lessee shall immediately advise the insurer and the Corporation of any and all accidents or claims involving the Equipment. Any insurance proceeds paid in respect of a loss of Equipment up to the replacement value shall be paid to the Corporation.

6.3 Title

Nothing in this Agreement shall give or convey to the Lessee any right, title, estate or interest in and to the Equipment together with any alterations thereof except as Lessee hereunder.

ARTICLE 7 INDEMNIFICATION BY LESSEE

7.1 Indemnification

The Lessee hereby agrees to indemnify and save harmless the Corporation, its directors, officers, employees or agents from and against any and all actions, causes of action, suits, claims, demands, costs, losses and expenses resulting from loss, injury, death or damage in respect of any party or person or government or government agency which may be brought against or incurred or suffered by the Corporation, its directors, officers, employees or agents or which the Corporation, its directors, officers, employees or agents may sustain, pay or incur by reason of or which may be attributable to or arise out of:
