

FIELD IMPROVEMENT 2009

November 2008

Operational Plan 2009

- Identify technology gaps
- Review new technologies and response techniques
- Identify process; lessons learned
- Develop a three year plan

Technology Gaps

- Sunken and submerged oil.
- OSCAR winter conditions
- Generic in-stream anchor design
- Waterfowl hazing
- Other ? (fast water)

WC  SS
Western Canadian Spill Services Ltd.

New Technologies

- Use expanded V with Bow Skimmer
- Ice router
- Utilization of parallel boom strings
- Waterfowl hazing
- Other? (current buster)

WC  SS
Western Canadian Spill Services Ltd.

Lessons Learned

- Development of a process to improve

2009 Potential Projects

- In-stream anchors
- Enhanced recovery with Bow Skimmer
- Testing inflatable river boom
- Waterfowl hazing
- Sunken and submerged oil
- Evaluate new ice router
